

Dear Commissioners:

I am alarmed that there has already been so much consolidation. I believe my media experiences are now homogenized. For example, I used to always enjoy listening to radio as I drove across the country. Now it all seems the same.

PLEASE NO MORE MEDIA CONSOLIDATION. We the public own the airwaves and we want to be served in all of our diversity.

Please do the right thing. Make decisions for the public and not private interest. Please allow a real public debate on this issue. After all, this is supposed to be a democracy. Our main stream media is already a puppet of the corporations, let's not make it any worse!

Sincerely,
gina plait
